Big plans? Get them funded

with TelkomLend.

TelkomLend gives your business fast, flexible access to R50 000 – R5 million. No collateral, no hassle – so you can seize your next growth opportunity and tailor repayments to suit your cash flow.

We have a host of benefits:

- **No collateral required**
We won't ask you to put up any assets.
- **Fast funding**
Upon approval, we disburse the funds into your account within 24 hours.
- **Flexible payment cycles**
Tailor your direct debit for daily or weekly cycles.
- **Flexible Terms**
Select payment terms between 3-12 months, giving you full control over your cash flow.
- **Dedicated customer service**
Help is just a phone call away! We have an incredible customer service team ready to assist you if/when you need it.

Use the funds to purchase more stock, renovate your premises or manage cash flow. TelkomLend is flexible and unrestricted.

Here's all you need to qualify:

6 Months Ownership
You must have been in business for at least 6 months.

3 Months Trade History
Provide your latest 3 months' bank statements.

R50K+ Monthly Turnover
You must have a minimum monthly revenue of R50K.

Flexible plans built for seamless business connectivity.

yep!

Ready for real jobs,
not just risks? Meet Yep!

Yep! is South Africa's service commerce marketplace connecting consumers to trusted service providers and enabling end-to-end service transactions, from discovery to payment and fulfilment.

Why Yep!

- Yep! goes beyond listings to power real work and real income for businesses.
- Discover better-quality service providers.
- Conveniently do everything Yep! related through its platform.
- Receive several quotes for the job you require.

For Consumers

1.

Find verified and vetted service providers near you.
2.

Book services with confidence and transparency.
3.

Pay securely and track jobs in real time.
4.

Get protection, support and dispute resolution when needed.
5.

Manage everything on one simple platform.

For Service Providers

1.

Get real jobs, not just enquiries.
2.

Reach more customers across South Africa.
3.

Manage services, pricing and bookings in one place.
4.

Get paid securely and on time.
5.

Build credibility through reviews, performance and verification.
6.

Grow your business with access to business tools.

Built for a stronger service economy.

Yep! is designed to:

- Support local businesses
- Create sustainable income opportunities
- Power South Africa's service economy through technology

Register your business by visiting seller.mall.yep.co.za

Find local services by visiting mall.yep.co.za

Grow your business
online with confidence.

Protect your business. Secure **your future.**

Safeguard your business with advanced cybersecurity and software solutions.

Telkom Cyber Security is cloud-based protection for the customer’s endpoints and mobile devices. This service combines advanced security technologies with features to safeguard customer devices and data.

Telkom Cyber Security features:

- **Phishing emails:** Identifies, blocks and filters phishing emails, preventing users from clicking on malicious links or opening harmful attachments.
- **Ransomware:** Detects, blocks and stops ransomware attacks before files are encrypted, protecting critical business data.
- **Malicious websites:** Blocks access to malicious websites, preventing malware downloads, phishing attempts and online threats.
- **Infected USBs:** Scans and blocks infected USB devices, preventing malware from spreading across business systems.
- **Stolen credentials:** Helps prevent credential theft by blocking phishing attacks, malicious websites and password-stealing malware.
- **Malware and viruses:** Detects, blocks and removes malware and viruses before they can compromise devices or data.

	Contract packages	Month-to-month packages
Cyber Security <i>Basic 2 devices</i>	R59 PM x 12	R79 PM
This entry-level package offers core security for everyday internet use.		
Advanced Cyber Security <i>2 devices</i>	R109 PM x 12	R129 PM
Compared to the Basic Cyber Security package, this option adds dark web monitoring, email protection, Web / URL filtering, and attachment blocking for stronger security.
