Table 1: Summary of the components of the Telkom Prepaid Compact-Fibre product and vouchers

8. Can I buy a voucher only when I need it?

- Yes, however if the Prepaid fibre line remains dormant for a period of 90 (ninety) days, during which period no recharge voucher is purchased, the relevant line will be converted to an Open Access Prepaid line, making all available ISP bundles visible to the customer. Therefore, the customer will no longer be able to contact Telkom for any support.

9. What if the Prepaid Compact-Fibre line remains dormant for longer than 180 (hundred-and-eighty) days?

- In the event that the Prepaid fibre line is dormant for a period of 180 (hundred-and-eighty) days, the Prepaid fibre service will expire.

10. Will the service come with SoftCap Internet vouchers?

- No. Only Uncapped Internet vouchers will be available.

11. What are the benefits of purchasing Telkom Prepaid Compact-Fibre service?

- No fixed terms contract.
- Easy top-up options.
- Full control of spend.

- No credit checks.
- No penalties or late fees, and no bill shock.

12. Where do customers buy the Telkom Prepaid Compact-Fibre starter packs?

The customers can buy through the following channels:

- Telkom Website (www.telkom.co.za)
- Call Centre
- Any Telkom store.

13. What payment methods are available for Telkom Prepaid Compact-Fibre and for the Uncapped recharge vouchers?

- Credit/Debit card only.

14. Where do customers buy the Telkom Prepaid Compact-Fibre recharge vouchers?

- From the Openserve Website at <https://openseive.co.za/openseiveisp/verify-prepaid>.

15. If I have a Telkom Prepaid Express-Fibre service, can I still buy recharges?

- Yes, recharges can be bought from the Telkom Internet portal.

16. How do I get to the Telkom Internet portal?

- The direct link is <https://customerportal.telkomsa.net/portal/support/>
- Or go to the Telkom main page at www.telkom.co.za
 - Select “Login” at the top right corner.
 - Select “Telkom Internet” from the drop-down list.

17. Can the customer cancel the order after a successful payment?

- No. The customer will not be able to cancel an order after a successful payment.

18. How will the customer journey look like?

- The customer journey will consist of 2 steps:

Step 1: Buy a Starter pack to get fibre line installed from the channels mentioned above.

Step 2: To top up and redeem Uncapped Internet vouchers whenever the current voucher duration runs out.

- The Starter packs include installation and 14-day Uncapped Internet data

19. Does the Uncapped Internet voucher include throttling and FUP thresholds?

- No. There are no FUP (Fair Usage Policy) thresholds, and no throttling applies.

- 20. Does the Uncapped Internet voucher include Value-Added services such as TI mailboxes or TI Mobile data?**
- There are no Value-Added services included on the Telkom Prepaid Compact-Fibre service.
- 21. How long does it take for the Telkom Prepaid Compact-Fibre line to be installed?**
- The installation will take place within an average of 7 working days. An Openserve technician will contact the customer to make an appointment for the fibre access installation up to the ONT only.
- 22. When will the Telkom Prepaid Compact-Fibre service be activated?**
- The customer will be notified when the service is active through an SMS.
- 23. Can the customer purchase the Internet voucher before the prepaid fibre access is installed?**
- No. It will not be possible.
- 24. Can a customer buy multiple vouchers in advance?**
- The customer can purchase multiple vouchers at the same time, and these vouchers will be activated in accordance with the sequence they were purchased.
- 25. When can the customer start using the Internet voucher after purchasing it?**
- It is recommended to buy the voucher before the last one runs out. If it has expired already, the new voucher will be active within two hours.
- 26. Can a customer migrate from Post-paid fibre to Telkom Prepaid Compact-Fibre?**
- Migrations are not allowed. The post-paid fibre service will have to be cancelled, and a new prepaid fibre service will be provisioned. When the Post-paid fibre service gets cancelled, the prorated remaining cost of the installation and router will be charged at the time of cancellation, if cancelled prior to the 12 months.
- 27. Is data transfer allowed from Telkom Prepaid Compact-Fibre voucher to another voucher?**
- No. Data transfer is not allowed.
- 28. What will happen to the Uncapped Internet voucher if a fault is detected on the Telkom network where such fault caused downtime to be experienced by the customer?**
- Telkom will allocate a suitable voucher option to the relevant fibre line to compensate for the downtime experienced by the customer. This voucher will only be allocated to a Telkom Prepaid Compact-Fibre line that has an active voucher.

29. Is there any call out fee involved?

- Yes. Telkom shall charge a call-out fee in all instances where the customer has requested Telkom to attend to any fault in respect of a Telkom Prepaid Compact-Fibre, where such fault is at a point in the network beyond the WiFi enabled ONT or where such fault is as a result of the customer's activities, including but not limited to any activity that may have caused damage to the WiFi enabled ONT, as well as power interruption incidents which could have been reasonably prevented by the customer.

30. Is the router required for Telkom Prepaid Compact-Fibre service?

- No. The service comes with a WiFi enabled ONT device.

31. What will the customer need to know in order to connect his/her devices to the internet via WiFi?

- The WiFi network name and password can be found at the back of the ONT device under SSID (WiFi network name) and the password under WLAN key or WiFi Key.

32. How long is the trenching distance included as part of the installation fee?

- The installation of the service includes 8 meters of trenching. If the distance from the boundary box to the customer premises is more than 8 meters, the customer will be responsible for the remaining trenching arrangements and charges.
